

- Majic Melt contains magnesium chloride, the fastest de-icer on the market.
- Majic Melt begins melting immediately upon contact by generating heat.
- Majic Melt effectively melts ice to -10° F.
- Available in 10#, 20#, 50# Poly bags, 100# boxes and 40# pail.
- Majic Melt is low in corrosiveness to metals and safer on black top and concrete.

TOXICITY ■ LD50 (mg/kg)

Majic Melt contains Magnesium Chloride, which is actually less toxic than many of the chemicals humans ingest daily, one of which is common salt. It is also one of the most environmentally safe materials on the market.

Manufactured by: GROWMARK FS, LLC
Milford, DE 19963

When it's this cold outside, make sure you have Majic Melt
