

Mulch Magic®

Revives Color of Decorative Landscape Mulch

GENERAL DESCRIPTION

Mulch Magic® is a unique blend of permanent colorants designed to be mixed with water and applied to faded fibrous mulch products like cedar, cypress, redwood bark, pine straw and more.

Mulch Magic is available in four colors.

For the look of...	Use...
Cedar or Pine Straw	Mulch Magic Bright Brown
Eastern Hardwood Bark	Mulch Magic Dark Brown
Redwood	Mulch Magic Red
Black	Mulch Magic Black

PACKAGING

Available in 4x0.5 gallon jugs.

DIRECTIONS FOR USE

Mulch Magic instantly restores fresh color to faded mulch when mixed with water and applied with backpack or handheld sprayers. A 2-5 minute interval between applications (to allow some drying) enhances the appearance and results in a longer-lasting color treatment. Color will last on most mulches for more than one year with gradual fading.

Existing mulch naturally breaks and new mulch is added. Mulch Magic® will help blend the color of the older mulch with the newer mulch.

Mulch Magic washes off most green plants without adverse staining. To avoid permanent staining, care should be taken to avoid accidental application to flower petals, buds, concrete, wood, light stones or other porous surfaces.

RECOMMENDED RATES

Mix 3-4 oz. (90-120 ml) of Mulch Magic in one gallon (3.78 L) of water to treat 200-400 sq. ft. (7-14 sq. m.). For color consistency, Mulch Magic should be applied in two passes, with the second pass perpendicular (at a right angle) to the first. This significantly decreases the skips and streaks. Coverage will also depend on mulch quality and desired color absorption. Higher use rates will impart a darker, longer-lasting color. Application should be made at least 30 minutes prior to irrigation or rainfall to prevent wash-off. Shake well before use.
