A-List (Alliance for Low Input Sustainable Turf) is a non-profit industry initiative with a mission to foster development of turfgrass varieties that perform under reduced inputs and levels of management, leading to a more sustainable environment. A-LIST has established a voluntary evaluation program including metrics like water conservation, reduced fertility, traffic, heat, and drought stress tolerances, all with no fungicide or insecticide applications. Results in NTEP trials are also considered. Products that meet the acceptance criteria can utilize the A-LIST Approved symbol in their marketing.
