

Mefenoxam 2 AQ

Broad Spectrum Turf & Ornamental Fungicide

Mefenoxam 2 AQ Fungicide is formulated to provide systemic control of root and stem diseases caused by Pythium and Phytophthora spp. as well as foliar diseases such as downy mildew. It features a water-based formula with low odor and it can provide protection for up to 3 weeks. Mefenoxam 2 AQ makes an excellent tank mix partner with most other fungicides. Can be combined with Quali-Pro's Chlorothalonil for added brown patch control during stressful summer decline months.

Features & Benefits

- Low odor compared to EC formulations
- Can be used on cool and warm season grasses and on all labeled ornamentals
- University Tested

Active Ingredient

22.5% Mefenoxam

Packaging

4 x 1 quart/case (80 cases/pallet)
